

**Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641**

REQUEST FOR PROPOSAL (RFP)

FOR

“Development of a Digital Farmer Registry System in Liberia”

Tender no: 2026/FRLIR/FRLIR/137641

Date of issuance: **20 July 2026**

Date of closing: **4 AUGUST 2026 at 12:00 pm (noon) Monrovia time**

TO ENSURE THE VALIDITY OF YOUR OFFER,

Your proposal must be submitted as follows:

TO ENSURE THE VALIDITY OF YOUR OFFER:

- **Your company shall be registered on UNGM (<http://www.ungm.org/>)**
- **Your proposal must be submitted as indicated in Article 8 of the RFP.**

Please note that submissions by e-mail or fax are not allowed.

Further instructions on how to access FAO tender documents and submitting your bid through UNGM are attached herewith and uploaded on your UNGM Tender Management page under the “View Synopsis” button of the “Tender” tab.

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

RFP No. 2026/FRLIR/FRLIR/137641

Date: 20 July/2026

Letter of Invitation

Dear Sir/Madame,

The Food and Agriculture Organization of the United Nations ("FAO" or "Organization") is an intergovernmental organization with more than 194 member nations. Since its inception, FAO has worked to alleviate poverty and hunger by promoting agricultural development, improved nutrition and the pursuit of food security - defined as the access of all people at all times to the food they need for an active and healthy life.

To achieve its goals, FAO cooperates with thousands of partners worldwide, from farmers' groups to traders, from non-governmental organizations to other UN agencies, from development banks to agribusiness firms (further and more detailed information on FAO can be found on the internet site: (<http://www.fao.org/>)).

In preparing your offer, you should take into account the international status and activities of FAO by submitting your best commercial terms. You should also be aware that FAO enjoys certain privileges and immunities which include exemption from payment of Value Added Tax ("VAT" or "IVA"), customs duties and importation restrictions.

FAO requests the provision of the following services:

“Development of a Digital Farmers Registry Systems in Liberia”

The invitation is subject to the following procedures and conditions which you deemed to have accepted by participating to this tender:

1. Procedures

- 1.1 Bidders are invited to submit proposals **in English** and this Organization intends, without having committed itself in any way to any of the firms it invites, to award the contract to the firm which it considers as having submitted the best proposal;
- 1.2 In submitting your proposal you are supposed to have considered all aspects relevant to the performance of the proposed contract and to have obtained all necessary information and data as to risks, contingencies and other circumstances, which may influence or affect your proposal;
- 1.3 It is understood that all documents, calculations, etc. which may form part of your proposal will become the property of the Organization which will not be required to return them to your firm;
- 1.4 The Organization may decide to make a partial award or no award at all should it consider that the results of this tender so require;

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

- 1.5 *All costs incurred to prepare your proposal have to be borne by you; this Organization will not be liable to reimburse any or all of such cost;*
- 1.6 **At no point prior to this award of the contract shall bidders contact or request any information pertaining to the tender from FAO, its staff of technical unit responsible for this tender, outside the specific channel indicated under paragraph 8 below;**
- 1.7 FAO has adopted a zero-tolerance approach to fraud, and it prohibits firms from engaging in corrupt, fraudulent, collusive, coercive, unethical and obstructive practices when participating in procurement activities. As provided by the Vendor Sanctions Procedures(http://www.fao.org/fileadmin/user_upload/procurement/docs/FAO_Vendors_Sanctions_Policy_Procedures.pdf), if FAO determines that a firm has engaged in such conduct, it will impose sanctions and may share information on sanctioned firms with other Intergovernmental or UN Organizations;
- 1.8 A firm and its affiliates, agents and subcontractors should not be suspended, debarred, or otherwise identified as ineligible by any Intergovernmental or UN Organization, including any organization within the World Bank Group or any multi-lateral development bank, or by the institutions and bodies of economic integration organizations (e.g., the European Union). You are therefore required to disclose to FAO whether your firm, or any of your affiliates, agents or subcontractors, is subject to any sanction or temporary suspension imposed by any such organization or National Authority at any time during the three years prior to the contract or at any time throughout the execution of the contract. You acknowledge that a breach of this provision will entitle FAO to terminate its contract with your firm and that material misrepresentations on your status constitute a fraudulent practice;
- 1.9 Bidders must certify that their firm is not associated, directly or indirectly, with entities or individuals (i) that are associated with terrorism, as in the list maintained by the Security Council Committee established pursuant to its Resolutions 1267 (1999) and 1989 (2011), or (ii) that are the subject of sanctions or other enforcement measures promulgated by the United Nations Security Council. Selected bidders also agree to undertake all reasonable efforts to ensure that none of the funds received from FAO under the awarded contract are used to provide support to individuals or entities associated with terrorism or that are the subject of Security Council sanctions. This provision must be included in any subcontracts, sub-agreements, or assignments entered into under the awarded contract. The bidder acknowledges and agrees that this provision is an essential term of the awarded contract and any breach of these obligations and warranties shall entitle FAO to terminate the contract immediately upon notice to the Contractor, without any liability for termination charges or any liability of any kind of FAO;
- 1.10 Consortium of firms will be accepted provided that the companies indicate which firm will be the main Contractor and will be responsible for the signature of the relevant contract. Bidders adhering to the Consortium will have to notify FAO of their acceptance to participate in the Consortium;
- 1.11 Bidders must certify that their firm/organization (including all members of a consortium, if applicable) and any subcontractors are not associated, directly or indirectly, with the consultant or any other entity who prepared the terms of reference or other bidding documents for the project;
- 1.12 Please note that bidders who use an independent consultant to assist in the preparation of offers may risk engaging in unacceptable practices if the same consultant assists another bidder to prepare an offer for the same tender. Bidders are reminded that they are fully responsible for the conduct of any consultant who may be used to prepare offers for FAO tenders and they should take all measures to ensure that any independent consultant engaged to assist in the preparation of an offer for an FAO

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

tender has not and will not be involved in the preparation of an offer for another bidder for the same tender process.

Bidders are kindly requested to disclose to the best of their knowledge whether their firm/organization has any personal or professional relationships with FAO. The disclosure shall include all relevant details and should include, but not be limited to:

- **ANY** current or past employment relationship between your firm/organization's representatives or employees and FAO;
 - **ANY** current or past relationship between your firm/organization's representatives or employees and an FAO staff member (family members, spouses, etc.).
- 1.13 FAO reserves the right to publish the details of awards, including supplier name and country, total Contract value and a brief description of the services. In all cases, unsuccessful bidders will be notified.

2. Evaluation

Technical Proposals will be opened and **screened through a pass/fail methodology** for compliance with the minimum qualification requirements listed in paragraph 2.1 below.

Financial Proposals will be opened thereafter and award recommended to the **lowest technically responsive bidder**.

2.1 Minimum Qualification Requirements

Bidders **must** fulfil the following minimum qualification requirements. Failure to provide required information/documents will result in the disqualification of the bidder from the tender evaluation process.

2.1.1 **Legal registration.** Bidders are required to provide valid certificates registration.

2.1.2 Experience working in Africa, preferably Liberia working with United Nations Agencies, Food and Agriculture Organization (FAO) of the United Nations, international organizations, European Union (EU), Department for International Development (DFID), USAID, UN, etc.). Bidders are required to provide evidence of such projects and full information on the same.

1.1.1 **At least one (1) or two (2) previous proven experience** in a related development within the last 10 years, including bidder's qualification and experience in **training, deployment and support** of such an application in line with project's unique requirements (experience in MIS, digital systems, social protection systems and agriculture sector programs. Also, proven expertise in system integration and interoperability with strong experience working with governments in Africa and demonstrated capacity in training, knowledge transfer, strong analytical and documentation skills).

Bidders are required to provide a list of minimum 2 contracts for execution of services of a similar nature and comparable or higher value to the required services, demonstrating a total of at least **five (5) years' experience**. The list should include the value of each contract, type of contract, name and address of employer in each case;

1.1.2 **A core permanent staff composed of Software Developer, Project Manager and Trainer**

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

& Data Support technician with experience in delivering software applications with multiple-concurrent users, with users who are of non-technical ability where software has internationalization/multi-lingual enablement and projects implemented with an element of gaming with a reward/punishment aspect to reach a desired goal. The following personnel are required with the listed experiences and accolades:

1.1.2.1 Key Expert 1: At least one Project Manager (*Please attach CV*):

- At least a university degree (Bachelor's degree) in a relevant field, such as Computer Science, Information Technology, Information Science, Data Science or closely related field;
- At least three years' experience in conducting software project management tasks especially for international non-profit donor funded organizations like UN and international NGOs

1.1.2.2 Key Expert 2: At least one Software Developer (*Please attach CV*):

- At least a Bachelor's degree in Information Technology, Information Science, Computer Science or a related field;
- At least two years' experience in developing web applications, Android and iOS apps, database setup, hosting configuration, and procurement of the HP Gen10 server;
- Experience training users on software particularly mobile applications

1.1.2.3 Key Expert 3: At least one Data and Support technician (*Please attach CV*):

- At least a Bachelor's degree in a relevant field, such as Data Science, Statistics, Computer Science, Information Technology, Information Science or related field;
- At least two years' experience in conducting technology training especially on software products;
- At least two years' experience providing user support to users on Android based software applications remotely and on-site;

1.1.3 Technical Proposal: work plan, with clear timeline and detailing the methodology, practical and logical approach and implementation plan in order to complete the services described in the TOR in maximum **five (5) months** after contract signature.

2. Documents Enclosed

To facilitate preparing your proposal the following documents are enclosed:

- 2.1 The "Proposal Summary" form, to be used for submitting your proposal;
- 2.2 The Terms of Reference (TOR) detailing the scope of services to be performed;
- 2.3 Technical Proposal Forms Tech-1 through Tech-6);
- 2.4 Financial Proposal Forms (Fin-1 through Fin-6); *and*
- 2.5 The Contract this Organization intends to award.

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

3. Documents to be submitted

Your proposal should be submitted in two separate parts consisting respectively of a **Technical Proposal** and a **Financial Proposal** which should be prepared as follows:

3.1 Part A: Technical Proposal:

- 3.1.1 Information/Documents to support the minimum qualification requirements indicated in paragraph 2.1 above;
- 3.1.2 The "Proposal Summary" referred to in paragraph 3.1 above;
- 3.1.3 Duly completed Form Tech-1 stating your firm's general and specific experience in the field(s) of work contemplated under the proposed contract. The information provided should include a description of specific experience in similar projects in the specified technical environment and references concerning previous contract work of this nature undertaken by your firm;
- 3.1.4 Comments and suggestions on the Terms of Reference including workable suggestions that could improve the quality/effectiveness of the assignment, as well as comments on any support to be provided by the Organization (Form Tech-2);
- 3.1.5 Description of the approach, methodology and work plan for performing the assignment covering the following subjects: technical approach and methodology, work plan, and organization and staffing schedule. Guidance on the content of this section of the Technical Proposals is provided under Form Tech-3. The work plan should be consistent with the Work Schedule (Form Tech-7) which will show in the form of a bar chart the timing proposed for each activity;
- 3.1.6 The list of the proposed Professional staff team by area of expertise, the position that would be assigned to each staff team member, and their tasks (Form Tech-4);
- 3.1.7 Estimates of the staff input (staff-months of foreign and local professionals as applicable) needed to carry out the assignment (Form Tech-6). The staff-months input should be indicated separately for home office and field activities, and for foreign and local Professional staff;
- 3.1.8 CVs of the Professional staff signed by the staff themselves or by the authorized representative of the Professional Staff (Form Tech-5);
- 3.1.9 *Additional supporting documents to be submitted (as per para 2.1 above):*
 - 3.1.9.1** Valid Legal Registration Certificate(s);
 - 3.1.9.2** Evidence of experience working in Liberia preferably working with United Nations Agencies, Food and Agriculture Organization (FAO), international organizations, European Union (EU), Department for International Development (DFID), USAID, UN, etc;
 - 3.1.9.3** **At least one (1) previous proven experience** in a development related to the current services within the last 5 years, including bidder's qualification and experience in **training, deployment** and **support** of software application in line with project's unique requirements;
- 3.1.10 **The Technical Proposal shall not include any financial information. A Technical Proposal containing financial information will be declared non-responsive.**

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

3.2 Part B: Financial Proposal:

- 3.2.1 The Financial Proposal shall be prepared using the attached Financial Proposal Forms referred to in para. 3.5 above. It shall list all costs associated with the assignment, including (a) remuneration for staff (foreign and local, in the field and at the Consultants' home office), and (b) reimbursable expenses. If appropriate, these costs should be broken down by activity and, if appropriate, into foreign and local expenditures. All activities and items described in the Technical Proposal must be priced separately; activities and items described in the Technical Proposal but not priced, shall be assumed to be included in the prices of other activities or items.

4. Completeness of Proposal

- 4.1 Proposals will only be considered if they contain all of the above information and documents and observe the provisions of the enclosed contract as otherwise it will not be possible to evaluate them on an equal basis. Since this Organization is not allowed to sign contracts, which do not specify its maximum financial liability, proposals which do not allow us to calculate such liability may be rejected.

5. Currency of Proposal and of Contract

Your proposal should be expressed in **United States Dollars (USD)**.

6. Duration of execution

The required services are expected to be completed within a maximum of **seven (7) months**.

7. Form of submission and closing date

The registration with UNGM (<http://www.ungm.org/Vendor/Registration>) is a mandatory requirement in order to participate in this tender.

Detailed instructions on how to access FAO tender documents and submit your proposal through UNGM are attached herewith and can be downloaded from your UNGM Tender Management page by clicking on the "View Synopsis" button under the "Tender" tab.

If you encounter any difficulties using the UNGM system navigation and functionality please contact (support@in-tend.com) referencing the exact FAO RFP number.

- 7.1 Both Technical Proposal and Financial Proposal shall be prepared in INDIVIDUAL FILES clearly named "**TECHNICAL PROPOSAL**" and "**FINANCIAL PROPOSAL**" respectively.
- 7.2 The Technical Proposal shall be uploaded to "**ENVELOPE 1: TECHNICAL PROPOSAL**". Similarly, the Financial Proposal shall be uploaded to "**ENVELOPE 2: FINANCIAL PROPOSAL**".
- 7.3 The Organization shall not be responsible for premature opening if the files are not named and uploaded as stipulated. This circumstance may be case for Proposal rejection. If the Financial Proposal is not submitted in a separate file duly named as indicated above, or combined with the Technical Proposal, this will constitute grounds for declaring the Proposal non-responsive.
- 7.4 Your proposal should be submitted, not later than at **12:00 hours, Monrovia time**, on:

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

"20 July 2026"

Proposals which do not conform to the above instructions will not be considered.

TO ENSURE THE VALIDITY OF YOUR PROPOSALS, THEY MUST BE SUBMITTED AS FOLLOWS

a. Uploading your proposal on UNGM

Please login to the UNGM website and upload all the documents requested (TECHNICAL PROPOSAL & FINANCIAL PROPOSAL) of the RFP into the designated Placeholders (i.e. ENVELOPE 1: TECHNICAL PROPOSAL & ENVELOPE 2: FINANCIAL PROPOSAL) within the indicated deadline.

It is the exclusive responsibility of the bidders to ensure that the files are uploaded before the tender deadline. Offers received after the deadline will be considered invalid.

Please follow the instructions below to upload the electronic files to the UNGM e-tendering system:

- a) **Log in the UNGM website** with your e-mail and password;
- b) Click on MY TENDERS and select the tender;
- c) Click on VIEW DOCUMENTS (green button on the left of the specific tender notice you are interested in);
- d) Click on the second tab of the tender notice;
- e) Click on the "OPT IN" button;
- f) To upload all the documents, go under "MY TENDER RETURN – MAIN" and proceed, as follows:
 - To upload the Technical Proposal, click on the red button "UPLOAD DOCUMENT", under the "Technical Proposal" envelop, as instructed in the corresponding "Description"
 - To upload the Financial Proposal, click on the red button "UPLOAD DOCUMENT", under the "Financial Proposal" envelop, as instructed in the corresponding "Description".

NOTE: It is highly recommended that the size of the files does not exceed 5MB and that the format of the files is "PDF", unless otherwise specified.

IMPORTANT: Once all files are uploaded (and the requested Questionnaire(s) completed), please remember to click on the red button "SUBMIT MY RETURN" to submit your offer. If the submission is properly completed, you will be able to view and download a receipt under the "HISTORY" tab.

SUBMISSIONS BY E-MAIL OR FAX ARE NOT ALLOWED.

b. Modification or Withdrawal of Bid:

Bidders may, without prejudice, modify or withdraw their offer before the deadline using the "MODIFY RETURN" function. No offer can be modified after the

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

deadline for submission.

c. No Bid Notice

In the event that your company is not interested in participating to this tender, the Organization would appreciate your feedback. In this case, you are kindly requested to click on the “OPT OUT” button displayed on your UNGM Tender Management page and indicate one or more of the following reason(s) for non-participation:

- *Requirements are outside our normal activities;*
- *Insufficient time was provided to prepare a bid;*
- *Present lack of resources to undertake more work;*
- *Other (please specify briefly).*

d. Communications Concerning this Tender

All communications concerning this tender should mention the tender number **TENDER 2026/FRLIR/FRLIR/137641** and should be submitted as soon as possible through the UNGM portal under the “CORRESPONDENCE” tab.

Bidders are responsible for appropriately examining this tender. If the Bidder finds discrepancies in or omissions from the documents, or if their intent or meaning appear unclear or ambiguous, or if any other questions arise, the Bidder shall submit any request for clarification through the aforementioned “CORRESPONDENCE” tab.

In submitting a request for clarification, please do not, under any circumstances, submit a copy of your offer or reveal any information about your intended quotation. This will invalidate your offer.

The deadline for submitting your requests for clarification is seven (7) days before the tender closing date.

e. FAO’s replies to Bidders’ requests for clarification

Responses to clarification enquiries will be simultaneously issued by FAO to all bidders through the UNGM.

The system will send automatic e-mail notifications to all bidders every time a clarification, or any other communication related to the tender notice, is sent out by FAO.

All FAO’s responses to bidders’ questions will be uploaded under the “CLARIFICATIONS” tab of your Tender Management page and made available to all bidders. Please ensure to read all the clarifications as they become part of the technical specifications.

8. Participation by FAO

You should examine carefully the nature and extent of the participation in the contract performance by FAO as set out in Part III of the “Proposal Summary” as it is assumed that all other requirements for its successful completion are provided at the cost of the contractor. **You should therefore state in the appropriate space any additions or modifications which you suggest for a satisfactory performance of the contract.**

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

9. Bidder Protests:

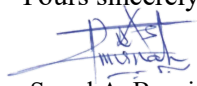

Fairness and transparency are fundamental principles for FAO procurement activities. Bidders that believe that the procurement process was not fair and transparent may request feedback from the office that issued the tender. If a satisfactory response is not received, the bidder may present a protest following the instructions detailed in the following link:

www.fao.org/unfao/procurement/codedeconduitethique/protests/en/

To report allegations of fraud or misconduct in the procurement process, bidders may submit information, also anonymously, to the Office of the Inspector General Hotline: www.fao.org/aud/69204/en/

I would like to take this opportunity of expressing my appreciation of your interest in assisting this Organization in the implementation of its activities.

Yours sincerely,

Saeed A. Bancie
FAO Representative Ad interim

Food and Agriculture Organization of the United Nations FAO

PROPOSAL SUMMARY

TO BE COMPLETED BY THE BIDDERS – MANDATORY

Instructions:

Please tick on the left blank boxes below (☐) to confirm validity of the corresponding statements.

Prices shall be quoted in **US Dollars**.

PART I: Minimum Qualification Requirements

☐

I certify to have submitted all the information/documents requested for the Minimum Qualification Requirements set forth under paragraph 2.1 of the Letter of Invitation and which are:

- 2.1.1 **Legal registration.** Bidders are required to provide certificates of registration;
- 2.1.2 Experience working in Africa, preferably Liberia working with United Nations Agencies, Food and Agriculture Organisation (FAO) of the United Nations, international organizations, European Union (EU), Department for International Development (DFID), USAID, UN, etc.). Bidders are required to provide evidence of such projects and full information on the same.
- 2.1.3 At least one (1) or two (2) previous proven experience in a related development within the last 10 years, including bidder's qualification and experience in training, deployment and support of such an application in line with project's unique requirements (experience in MIS, digital systems, social protection systems and agriculture sector programs. Also, proven expertise in system integration and interoperability with strong experience working with governments in Africa and demonstrated capacity in training, knowledge transfer, strong analytical and documentation skills). Experience in Software Development, including but not necessarily limited to:
- Android-based software applications with multiple-concurrent users;
 - Previously executed Software project with users who are of non-technical ability;

Bidders are required to provide a list of contracts for execution of services of a similar nature and comparable or higher value to the required services. The list should include the value of each contract, type of contract, name and address of employer in each case;

- 2.1.4 **A core permanent staff composed of Software Developer, Project Manager, Trainer & Data Support technician** with experience in delivering software applications with multiple-concurrent users, with users who are of non-technical ability. The following personnel are required with the listed experiences and accolades:

2.1.4.1 **Key Expert 1:** At least one Project Manager (*Please attach CV*):

- At least a university degree (Bachelor's degree) in a relevant field, such as Computer Science, Information Technology, Information Science or closely related field;

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

- At least three years' experience in conducting software project management tasks especially for (not limited to) international non-profit donor funded organizations like UN and international NGOs

2.1.4.2 Key Expert 2: At least one Software Developer (*Please attach CV*):

- At least a Bachelor's degree in Information Technology, Information Science, Computer Science or a related field;
- At least two years' experience in developing web applications, Android and iOS apps, database setup, hosting configuration, and procurement of the HP Gen10 server;
- Experience training users on software particularly mobile applications

2.1.4.3 Key Expert 3: At least one Trainer and Data Support technician (*Please attach CV*):

- At least a Bachelor's degree in a relevant field, such as Computer Science, Information Technology, Information Science or related field;
- At least two years' experience in conducting technology training especially on software products;
- At least two years' experience providing user support to users on Android based software applications remotely and on-site;

2.1.5 Technical Proposal: work plan, with clear timeline and detailing the methodology, practical and logical approach and implementation plan in order to complete the services described in the TOR in maximum **seven (7) months** after contract signature.

PART II: Commencement of contract performance

- ☐ I undertake to commence the performance of the contract immediately upon receipt of the contract itself duly signed by the Organization.

PART III: Participation by FAO in the Contract

Either:

- ☐ I certify that the inputs to be provided by FAO, as set out in the Letter of Invitation are adequate and sufficient for a satisfactory contract performance;

or

- ☐ For a satisfactory contract performance, the following would have to be provided (please indicate the related costs only in your financial offer):

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

PART IV: Financial Offer

- ☐ I hereby confirm that I have submitted a **Financial Offer** (FIN Forms 1-6) showing the costs proposed for the requested services.
- ☐ I understand that all costs related to activities or services required for satisfactory execution of the object of the tender are deemed to have been included in the financial proposal.

PART V: Duration of Execution of the Contract (point 6. of the Letter of Invitation)

- ☐ I confirm that this firm can provide the services within a maximum of **six (6) months**.

PART VI: Completeness of Proposal:

- ☐ I confirm having obtained all relevant data and information as regards risk, contingencies, and any other circumstances, which may influence or affect the performance of the contract, which have been duly taken into account in the formulation of this proposal.

PART VII: Certification of Proper Procedures

- ☐ I certify that my firm/organization (including all members of a consortium, if applicable) and its subcontractors are not associated, directly or indirectly, with the consultant or any other entity who prepared the terms of reference or other bidding documents for the project.
- ☐ I acknowledge that my firm is responsible for any consultant, including independent consultants, who assists in the preparation of offers and confirm that my firm has taken all measures to ensure that any independent consultant engaged to assist in preparing this offer has not and will not be involved in the preparation of another bid for another bidder for the same tender process.

PART VIII: Conflict of Interest Disclosure

Either:

- ☐ To the best of my knowledge, I confirm that none of my firm's representatives or employees has a current or former employment relationship with FAO, and none of my firm's representatives or employees have a current or past relationship with an FAO staff member (family members, spouses, etc.).

or

- ☐ I have provided below details regarding the following representatives or employees of my firm who have a current or former employment relationship with FAO and/or who have a current or past relationship with an FAO staff member:

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

PART IX: Contract Provisions

- ☐ I confirm that I have read and that I accept the standard provisions set forth in the Terms of Reference (TOR) and attached draft contract and I do not have any reservation.
- ☐ I certify that my firm has not and will not engage in corrupt, fraudulent, collusive, coercive, unethical or obstructive practices during the selection process and throughout the negotiation and execution of the contract.
- ☐ I confirm that my firm, including any affiliates, agents or subcontractors, is not subject to any sanction or temporary suspension imposed by an Intergovernmental or UN Organization, including any organization within the World Bank Group or any multi-lateral development bank, or by an institution or body of an economic integration organization (e.g., the European Union). If my firm, or any affiliates, agents or subcontractors, has been subject to any temporary suspension or sanction by any such organization or a National Authority within the preceding three years, I have provided further information below:

- ☐ I certify that my firm is not associated with any individual or entity appearing on the 1267/1989 list of the UN Security Council or with any individual or entity subject to any other sanctions or enforcement measures promulgated by the UN Security Council.
- ☐ I confirm that the terms and conditions of the draft contract as enclosed with this Letter of Invitation are acceptable except for the reservations explicitly set out in this Proposal Summary.

PART V: Validity of Proposal:

- ☐ This proposal is valid for acceptance for a period of **THREE (3) MONTHS** as from the deadline for the submission of the proposal indicated in the letter of invitation.

TERMS OF REFERENCE

Annex I

Liberia continues to face significant development constraints marked by high levels of rural poverty, food insecurity, and vulnerability to economic, climatic, and health-related shocks. The agricultural sector remains central to the economy, employing approximately two-thirds of the population and serving as the primary source of livelihoods for rural households. However, the sector is largely subsistence-oriented, fragmented, and insufficiently integrated into formal systems of service delivery, financing, and social protection.

Rural populations are disproportionately affected by poverty and limited access to essential services, including agricultural extension, financial services, climate-smart technologies, and structured markets. Women and youth who form a substantial share of the agricultural workforce continue to face structural barriers related to access to land, productive inputs, and participation in decision-making processes. These challenges are further intensified by climate variability, including floods and droughts, as well as external shocks such as global food price fluctuations.

The Government of Liberia has made notable progress in strengthening social protection systems as part of its broader strategy for poverty reduction and resilience building. Key interventions, including the Social Cash Transfer Programme (SCTP), school feeding programmes, and public works schemes, have contributed to improving the welfare of vulnerable populations. Nonetheless, the effectiveness and scalability of these programmes are constrained by fragmented beneficiary identification systems, limited coverage, and weak integration across sectors.

A critical constraint to expanding inclusive social protection, particularly for rural and agrifood-dependent populations, is the absence of a comprehensive, reliable, and interoperable data system capturing the socio-economic and productive characteristics of farmers. Existing farmer registration initiatives are largely project-based, fragmented, and not institutionalized within national systems, thereby limiting their utility for coordinated planning, targeting, and service delivery at scale.

At the institutional level, while the Ministry of Gender, Children and Social Protection (MGCSP) operates Management Information Systems (MIS) to administer social protection programmes, these systems are not adequately linked to agricultural data systems maintained by the Ministry of Agriculture (MoA). This lack of interoperability reduces the Government's ability to effectively identify vulnerable farming households and respond to livelihood-related shocks.

In response, the Government is prioritizing the development of integrated digital solutions to enhance coordination, targeting, and service delivery across sectors. The establishment of a Digital Farmer Registry (DFR) represents a strategic investment to formalize farmer data, improve the visibility of rural populations, and enable evidence-based decision-making. An integrated registry system will support improved targeting of both social protection and agricultural interventions, enhance transparency and efficiency in resource allocation, strengthen resilience of rural livelihoods, and enable timely responses to shocks and emergencies.

In addition, the development of Standard Operating Procedures (SOPs) is essential to ensure effective implementation, governance, and sustainability of the registry system. The SOPs will define roles, responsibilities, workflows, and data management protocols, and will strengthen coordination among key

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

institutions, including the Ministry of Agriculture, the Ministry of Gender, Children and Social Protection, the Liberia Institute of Statistics and Geo-Information Services (LISGIS), and other stakeholders at national and sub-national levels.

FAO, leveraging its technical expertise in agrifood systems, digital agriculture, and social protection, is supporting the Government of Liberia in designing and operationalizing an integrated Digital Farmer Registry aligned with national development priorities and international best practices.

The proposed intervention will therefore focus on the development and deployment of a comprehensive, interoperable Digital Farmer Registry, together with the establishment of robust SOPs, to strengthen institutional coordination, improve beneficiary targeting, and expand the coverage and effectiveness of social protection and agricultural support programmes in Liberia.

Objectives

Overall Objective: To enhance the effectiveness, inclusiveness, and efficiency of social protection systems in Liberia through a robust interoperable Digital Farmer Registry and SOP framework.

Specific Objectives:

- Establish a comprehensive and up-to-date digital farmer registry database.
- Develop SOPs covering farmer registration, verification, data management, and inter-agency coordination.
- Enable interoperability between agriculture and social protection MIS systems.
- Strengthen evidence-based policy and planning.
- Improve targeting and delivery of agricultural and social protection interventions.

DESCRIPTION OF SERVICES

The assignment entails the design, development, and deployment of a comprehensive Digital Farmer Registry (DFR) system in Liberia, fully interoperable with existing national social protection Management Information Systems (MIS). The system will serve as a critical national platform to support integrated service delivery across the agriculture and social protection sectors, with particular focus on enhancing the identification, targeting, and support of vulnerable rural populations dependent on agrifood systems for their livelihoods.

Specifically, the assignment will include:

- Component 1: Conduct a comprehensive assessment of existing farmer registry initiatives and social protection systems.
- Component 2: Design the Digital Farmer Registry, including data architecture, system IT requirements, technical capacities and governance frameworks.
- Component 3: Develop detailed SOPs covering all operational workflows including multisectoral correlation.
- Component 4: Develop or customize DFR software and ensure system interoperability functionalities with social protection MIS. .
- Component 5: Build capacity of government staff at national and sub-national levels.
- Component 6: Testing the system and support national rollout.
- Component 7: Document lessons learned and best practices.

The assignment will also ensure that the system is scalable, secure, and aligned with national institutional frameworks, supporting long-term sustainability and effective cross-sectoral coordination.

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

DETAILED SOP DEVELOPMENT

The SOPs will provide clear, step-by-step guidance on all processes related to the farmer registry. It will define roles and responsibilities of all institutions involved including MoA, MGCSP, LISGIS, and local authorities (see in Appendix 2 to Annex 1).

It will outline procedures for:

- Farmer identification and registration
- Data collection and validation
- Data storage, protection, and updating
- Integration with social protection system
- Grievance redress mechanisms
- Monitoring and reporting

The SOPs will also document institutional coordination mechanisms and workflows to ensure efficiency. Consultative workshops will be conducted to validate and finalize SOPs with stakeholders.

DELIVERABLES

- Inception report including detailed methodology and workplan
- Gap assessment report
- Digital Farmer Registry system design document
- SOP manual
- Functional and interoperable digital platform
- Training materials and training reports
- Pilot implementation report
- Final report including lessons learned and policy recommendations

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

Appendix 1 (To Annex I)

A) Comprehensive Digital Farmers Registry/ MIS and Integrated Digital Platform Specifications

a) Purpose

The system shall establish a **Comprehensive Digital Farmers Registry (DFR)** integrated with a centralized **Management Information System (MIS)** to register, profile, monitor, and support farmers, farmer organizations, agribusinesses, and rural households. The platform will enhance service delivery, program targeting, monitoring and evaluation, and interoperability with government systems, social protection programs, and agricultural sector initiatives.

NB: The platform will promote a "register once, use many times" approach to improve efficiency, transparency, and coordination across sectors.

b) Core System Modules

NB: Content nonrelated to agriculture (health, education, etc.) will be developed and approved in liaison with relevant government entities as specified in Annex II section(C) below

1. Digital Farmers Registry (DFR) Module

The DFR shall serve as the foundational database for all farmers and farms' traceability. Information on Farmer registration and profiling (farmers names, farmers address, farmers sex farm size, farms locations, etc), farm household-level socio-economic data collection, farm workers individual and household unique identification, farmer categorization (stallholder farmers base on farm size, commercial farmers, youth farmers, women farmers, farmer groups and cooperatives, agribusiness enterprises, producer organizations), geo-referenced farm (farm mapping and land parcel registration using GPS coordinates), etc.

- **Data Elements:** will include demographic information, national identification details, household composition, farm characteristics, production systems, asset (land) ownership, vulnerability indicators and social protection status.

2. Agriculture Management Module

Supports planning, implementation, monitoring and evaluation of production, agricultural interventions and government programs. It provides farmers and government institutions with access to agricultural services and production data.

3. Social Protection Integration Module

Facilitates coordination between agriculture and social protection systems.

- **Features:** Interoperability with national social registries, identification of vulnerable farming households, shock-responsive social protection mechanisms, livelihood support tracking, emergency assistance targeting and food security vulnerability monitoring.

B) Interoperability Framework and Open APIs

The platform shall adopt internationally recognized interoperability standards to enable integration with existing and future government systems.

1. Open APIs

The system shall provide secure APIs to enable interoperability with:

- National Identification Systems

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

- Civil Registration Systems
 - National Social Registry
 - Social Cash Transfer Systems
 - Agricultural Subsidy Programs
 - Agricultural Census Databases
 - Land Information Systems
 - Meteorological Services
 - Financial Institutions
 - Mobile Network Operators
 - Digital Payment Platforms
 - National Statistics Systems
 - E-Government Platforms
- **Data Exchange Standards:** RESTful APIs, JSON/XML formats, OpenAPI standards, Secure authentication protocols, Role-based access controls, GDPR and national data protection compliance.

C) Digital Farmers Registry Hardware and Infrastructure Specifications

1. Primary Connectivity

- 4G/5G connectivity using MTN and Orange networks with automatic failover redundancy.
- Enterprise-grade routers and modems.

2. Secondary Connectivity

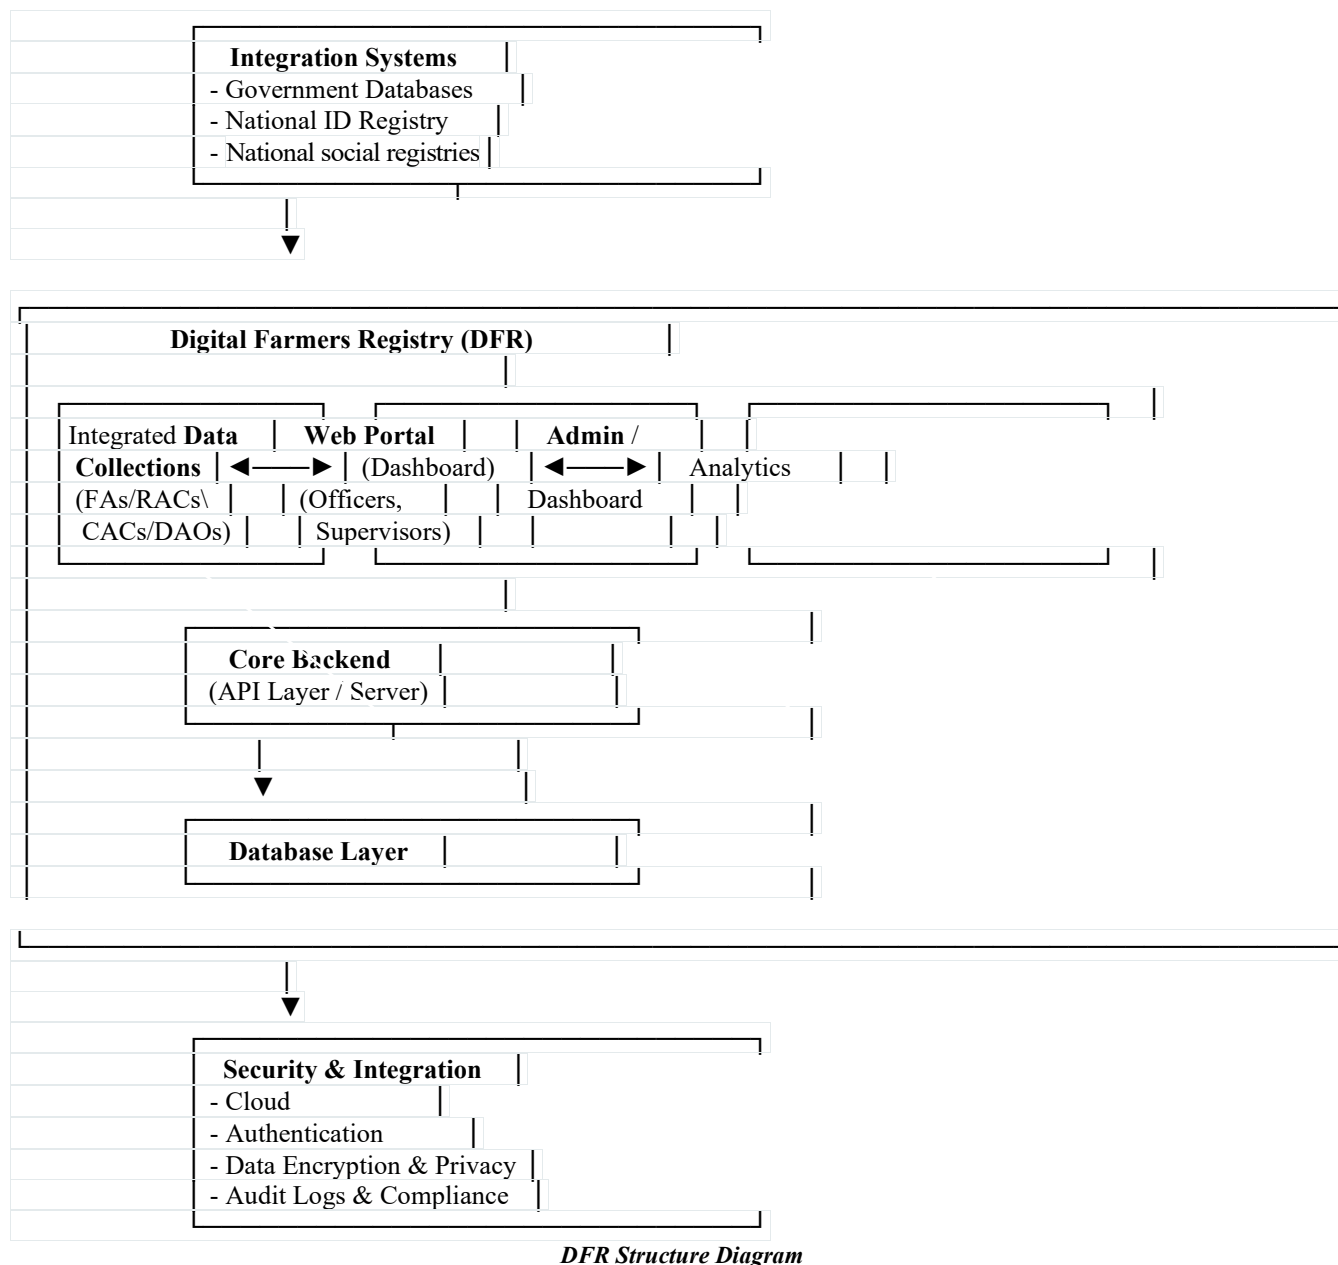

- USSD services for low-connectivity areas.
- SMS gateway integration.
- Offline data collection synchronization capability.

3. Data Center and Server Infrastructure

- ❖ **Server:** Enterprise-grade HP Gen10/11 or equivalent, 16-32 core processor, with 2-10TB HD, 512GB RAM, virtualization support and backup and disaster recovery capabilities for hosting applications and databases.
- ❖ **Database Server:** Dedicated database environment, High-availability configuration, automated backups, Data replication mechanisms.
- ❖ **Cloud Readiness:** government data center, hybrid cloud environment, Google or Microsoft Azure or other approved cloud infrastructure.
- ❖ **DFR Structure Design:** See diagram below.

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

D) DFR Institutional Arrangements, Data Governance and Content Contributions

The Digital Farmers Registry (DFR) and Integrated Agricultural Management Information System (MIS) will be implemented by FAO Liberia in support of the Government of Liberia (GoL) under the leadership of the Ministry of Agriculture (MoA) and in collaboration with key government institutions and stakeholders, including the Ministry of Gender, Children and Social Protection (MoGCSP), Cooperative Development Agency (CDA), Liberia Institute of Statistics and Geo-Information Services (LISGIS), local government authorities, farmer organizations, development partners, and other relevant sector ministries.

The platform will operate as a national digital public infrastructure for agriculture, supporting farmer registration, agricultural production traceability, social protection coordination, monitoring and evaluation, and evidence-based

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

polycymaking through a coordinated multi-sector governance framework.

a. Institutional Roles and Responsibilities

1. Ministry of Agriculture (MoA) – Lead Implementing Institution

The Ministry of Agriculture is the lead government institution responsible for policy oversight, coordination, content validation, and management of agricultural data and services within the DFR.

Key Contents

- ❖ Digital Farmer Registry and Agricultural Data
 - National farmer registration and profiling data
 - Farm traceability and characterization
 - Household characterization data
 - Farmer organization and cooperative registration data
 - Agricultural program beneficiary records
 - Agricultural value chain and market information

2. Ministry of Gender, Children and Social Protection (MoGCSP)

The Ministry of Gender, Children and Social Protection shall provide content and system linkages related to social protection, gender equality, social inclusion, and vulnerable populations.

Key Contents

- ❖ Social Protection and Household Vulnerability Data
 - Information on social protection programmes and services
 - Gender of Household
 - Gender of farmer and farm ownership
 - Vulnerability targeting criteria and indicators
 - Beneficiary verification data, where applicable
 - Shock-responsive social protection information
 - Graduation and livelihoods support programmes

3. Cooperative Development Agency (CDA)

The Cooperative Development Agency shall support the registration, profiling, and strengthening of farmer organizations and cooperatives.

Key Contents

- Cooperative registration and certification data
- Farmer organization profiling

4. Liberia Institute of Statistics and Geo-Information Services (LISGIS)

LISGIS shall support statistical standards, data quality assurance, geospatial information management, and national data harmonization.

Key Contents

- National statistical classifications and standards.
- Geospatial reference data.
- Administrative boundary datasets.

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

- Sampling frameworks and methodology support.
- Data quality assurance protocols.
- National demographic and socio-economic datasets.
- Integration with national census and survey data where applicable.

5. Community-Level Contributions

Participating communities, farmer groups, cooperatives, and local authorities shall contribute validated local information to support the Digital Farmers Registry and MIS.

Community Contents

- Farmer registration and profile updates.
- Farm location and land parcel information.
- Agricultural production data.

b. Data Governance and Content Validation

To ensure data quality, integrity, and sustainability, all content uploaded to the platform shall be the guidance and approval by the responsible government institution.

❖ Governance Principles

- Government ownership of official datasets
- Data privacy and protection compliance
- Role-based access controls
- Regular content review and updates
- Interoperability with national digital and social systems
- Standardized data definitions and classifications
- Evidence-based data management practices
- Transparent data sharing protocols

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

Appendix 2 (To Annex I)

Standard Operating Procedures (SOPs) for DFR and MIS

The Standard Operating Procedures (SOPs) shall serve as the official operational framework governing the establishment, management, maintenance, and utilization of the Digital Farmers Registry (DFR) and its interoperability with agricultural, social protection, and other government information systems. The SOPs will ensure consistency, transparency, accountability, data quality, and institutional ownership while supporting the Government of Liberia's objective of establishing a unified and sustainable farmer registry.

The SOPs will be developed in consultation with the Ministry of Agriculture (MoA), Ministry of Gender, Children and Social Protection (MoGCSP), Liberia Institute of Statistics and Geo-Information Services (LISGIS), Cooperative Development Agency (CDA), county and district authorities, farmer organizations, and development partners, drawing on international good practices and FAO's experience in Digital Farmer Registries and Agricultural Management Information Systems.

a. Purpose and Scope

To serve as detailed guidance for all stakeholders involved in the implementation and management of the Digital Farmers Registry and associated MIS. They will standardize operational processes, clarify institutional responsibilities, establish accountability mechanisms, and ensure harmonized data management practices across sectors and administrative levels.

The SOPs shall cover:

- Farmer and household registration processes
- Data governance and management procedures
- Beneficiary targeting and verification
- Farm and land traceability
- Data quality assurance and control
- System interoperability and data exchange
- Integration with social protection and agricultural programmes
- User access management and security integration
- Monitoring, reporting, and performance management.
- Data privacy, confidentiality, and compliance requirements

b. Farmer Identification and Registration Procedures

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

The SOPs shall establish standardized procedures for identifying and registering farmers and agricultural households.

1. Registration Workflow and data collection

- Step 1: Community Mobilization and Awareness
- Step 2: Farmer Enumeration
- Step 3: Verification and Validation
- Step 4: Approval and Registration

2. Farm Traceability and Geospatial Procedures

The SOPs shall define procedures for mapping and recording agricultural holdings.

- Farm Registration Standards

- GPS coordinates shall be captured for all farms.
- Land shall be geo-referenced.
- Farm boundaries shall be recorded where feasible.
- Multiple lands belonging to a single farmer shall be linked under one profile.

- Geospatial Data Requirements

- Administrative boundaries
- County and district codes
- Community identification codes
- Geographical coordinates
- Farm size estimates
- Production/cluster zones

3. Data Collection, Quality Assurance, and Validation

The SOPs shall establish a comprehensive data quality framework.

- Data Quality Standards: Data shall be assessed based on:

- Accuracy
- Completeness
- Consistency
- Timeliness
- Uniqueness
- Reliability

- Validation Mechanisms: The system shall include:

- Automated validation rules
- Duplicate detection protocols
- Field supervision procedures
- Spot-check verification exercises

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

- Community validation processes
- Periodic data quality audits

4. Data Management, Security and Protection Procedures

The SOPs shall establish robust data governance practices consistent with national and international standards.

- **Data Storage and Management:** Procedures shall be established for:
 - Secure data storage
 - Data backup and recovery
 - Version control
 - Archiving and retention
 - Regular data synchronization from field devices.
- **Data Privacy and Protection:** The SOPs shall define:
 - Informed consent procedures
 - Data confidentiality requirements
 - Access control protocols
 - User authentication requirements
 - Data-sharing agreements
 - Compliance with applicable data protection laws
- **User Access Levels:** Access shall be granted according to defined roles:
 - System Administrator
 - National Data Manager
 - Ministry User
 - County Officer
 - District Officer
 - Enumerator
 - Partner Institution User
 - Read-only Analyst

5. Integration with Social Protection Systems

The SOPs shall provide detailed protocols for linking agricultural and social protection information systems.

- **Key Procedures**
 - Vulnerability identification and classification
 - Farmers and deduplication
 - Referral mechanisms between agriculture and social protection programs
 - Monitoring of gender categories owning multiple farms
 - Support for shock-responsive social protection interventions

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

6. Monitoring, Reporting and Performance Management

The SOPs shall define procedures for routine monitoring and reporting.

- Monitoring Indicators

- Number of farmers
- Number of farming households
- Location of farms
- Farmland size
- Type of farmland (lowland, upland, primary or secondary forest land)
- Percentage of women farmers
- Percentage of youth farmers
- Number and status of cooperatives
- Number of value chain specify farmers
- Land size under production
- Types of value chain

- Reporting Requirements: The system shall generate:

- Monthly operational reports
- Quarterly performance reports
- Annual registry status reports
- Gender and youth dashboards
- Geographic coverage reports.

7. Coordination and Governance

The SOPs shall document governance structures and coordination mechanisms for the Digital Farmers Registry.

- National Steering Committee

A multi-agency Steering Committee shall provide strategic oversight and policy guidance.

- Technical Working Group shall oversee:

- System operations
- Data standards
- Interoperability
- Technical enhancements
- Regular process and usage improvements

- Coordination Meetings: The SOPs shall define:

- Meeting schedules
- Reporting responsibilities
- Decision-making processes
- Escalation mechanisms

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

- Stakeholder communication protocols

8. Capacity Development and Technical Support

The SOPs shall include procedures for:

- Training of enumerators/regula data collector and supervisors
- User onboarding
- Refresher training
- Knowledge management.
- Continuous technical support
- Institutional capacity strengthening

9. SOP Validation and Approval Process

Draft SOPs shall be reviewed and validated through a series of national and sub-national stakeholder consultations involving all participating institutions. Feedback shall be incorporated into the final version before formal approval by the Ministry of Agriculture and relevant government stakeholders.

The approved SOPs shall become the official operational manual for the management, updating, governance, and utilization of the Digital Farmers Registry and Integrated MIS, ensuring a coordinated, interoperable, and sustainable system that supports agricultural development, social protection, and evidence-based decision-making in Liberia.

Form Tech-2: COMMENTS AND SUGGESTIONS ON THE TERMS OF REFERENCE

On the Terms of Reference

[Present and justify here any modifications or improvement to the Terms of Reference you are proposing to improve performance in carrying out the assignment (such as deleting some activity you consider unnecessary, or adding another, or proposing a different phasing of the activities). Such suggestions should be concise and to the point, and incorporated in your Proposal.]

Food and Agriculture Organization of the United Nations FAO
Representation in Liberia
Tender No. 2026/FRLIR/FRLIR/137641

Form Tech-3: DESCRIPTION OF APPROACH, METHODOLOGY AND WORK PLAN FOR PERFORMING THE ASSIGNMENT

[Technical approach, methodology and work plan are key components of the Technical Proposal. You are suggested to present your Technical Proposal (inclusive of charts and diagrams) divided into the following three chapters:

- a) Technical Approach and Methodology,*
- b) Work Plan, and*
- c) Organization and Staffing,*

a) Technical Approach and Methodology. In this chapter you should explain your understanding of the objectives of the assignment, approach to the services, methodology for carrying out the activities and obtaining the expected output, and the degree of detail of such output. You should highlight the problems being addressed and their importance, and explain the technical approach you would adopt to address them. You should also explain the methodologies you propose to adopt and highlight the compatibility of those methodologies with the proposed approach.

b) Work Plan. In this chapter you should propose the main activities of the assignment, their content and duration, phasing and interrelations, milestones (including interim approvals by the Organization), and delivery dates of the reports. The proposed work plan should be consistent with the technical approach and methodology, showing understanding of the TOR and ability to translate them into a feasible working plan. A list of the final documents, including reports, drawings, and tables to be delivered as final output, should be included here. The work plan should be consistent with the Work Schedule of Form TECH-7.

c) Organization and Staffing. In this chapter you should propose the structure and composition of your team. You should list the main disciplines of the assignment, the key expert responsible, and proposed technical and support staff.]
