

Food Safety & Hygiene SOP (Catering Services)

Document Title	Food Safety & Hygiene SOP
Version	2.0
Effective Date	01/12/2024
Owner	Food Safety & Quality Supervisor
Approved By	Management

Purpose — Ensure foods and beverages prepared/served by TOTAG are safe, hygienic, traceable, and suitable for institutional clients (LERC/UNICEF).

Standards — HACCP principles, Codex/WHO Good Hygiene Practices (GHP), and ISO 22000-style controls (procedures, competence, verification, records).

Key Operating Controls (HACCP-aligned)

- Approved suppliers; receiving inspection (freshness, expiry, seals); reject compromised items; record in Receiving Log.
- FIFO/FEFO storage; segregate raw vs ready-to-eat; label containers; keep storage clean, dry, and pest-protected; daily checks logged.
- Hygienic preparation: handwashing, hair covering, clean uniform; separate utensils/boards for raw vs ready-to-eat; sanitize between tasks.
- Cooking/reheating (critical control): cook thoroughly; reheat rapidly; verify safe internal temperatures appropriate to the food; record batch checks.
- Hot/cold holding & time control: keep hot foods hot and cold foods cold; minimize time in the danger zone; discard unsafe items.
- Food-grade packaging and covered transport; dispatch checklist; delivery handover confirmation (time, receiver, headcount).
- Cleaning & sanitation: clean then sanitize food-contact surfaces; daily sanitation schedule; covered waste removal; pest prevention actions recorded.
- Allergens/special diets (when requested): prevent cross-contact; clear labeling; confirm requirements during order intake.
- Incident response: stop service, isolate product, notify supervisor, document, sanitize, and implement corrective/preventive actions.

Training & Records

All staff complete induction before assignment and periodic refreshers. The Food Safety & Quality Supervisor verifies compliance via log reviews, spot checks, and corrective-action tracking; records are retained for audit.

Records: Supplier List; Receiving Log; Storage Log; Cooking/Batch Log; Cleaning & Sanitation Log; Delivery Confirmation Log; Incident/Corrective Action Log; Training Register.

Staff Hygiene Policy (Food Handlers & Catering Staff)

Document Title	Staff Hygiene Policy
Version	2.0
Effective Date	01/12/2024
Approved By	Management

Objective — Prevent contamination, protect client health, and ensure professional conduct at client sites.

Mandatory Rules

- Fitness to work: no food handling with vomiting, diarrhea, fever, sore throat with fever, infected wounds, or skin infections; report illness immediately.
- Uniform: clean uniform/apron daily; hair fully covered; beard cover where applicable; nails short/clean (no nail polish).
- Hand hygiene: wash with soap/safe water before work; before ready-to-eat food; after toilet use; after raw foods; after phones/money/waste; after cleaning; after breaks.
- Gloves & PPE: change gloves between tasks or when contaminated/torn; gloves do not replace handwashing; use clean PPE suitable for task.
- No jewelry on hands/wrists during food handling (plain band only if permitted).
- Food-area conduct: no smoking, gum, or eating while handling food; do not cough/sneeze over food; if it happens, step away, wash hands, and change gloves.
- Cuts/wounds: cover with waterproof dressing; gloves over bandage; exclude weeping wounds from food handling until healed.
- Client-site professionalism: keep serving stations clean; handle waste discreetly; prompt clean-down; do not enter restricted areas without authorization; protect client property/confidentiality.
- Enforcement: coaching/retraining, written warning, and removal for repeated/serious breaches; escalate food safety violations to management.
